

## Project Design Phase-I Solution Architecture

Date	01 November 2022
Team ID	PNT2022TMID43402
Project Name	Project – Smart farmer-IoT enabled smart farming application.
Maximum Marks	4 Marks

### Solution Architecture:

Solution architecture is a complex process – with many sub-processes – that bridges the gap between business problems and technology solutions. Its goals are to:

- Discover the finest technological solution to address current company issues..
- Describe the software's design, features, functionality, and other elements to the project's stakeholders..
- Specify the features, stages of development, and requirements for the solution.
- Offer guidelines for how the solution is created, managed, and delivered.

### Example - Solution Architecture Diagram:
